

**WAITING FOR SANTA** - This spot on the mall is reserved for Santa, who will be visiting with children after the Saturday parade and in downtown stores. Santa will also be on

the mall on two Saturdays before Christmas, December 10 and 17, times to be announced later.

## Parade To Kickoff Yule Season Here

The Christmas season in the Cameron area will be officially kicked off Saturday with a big yule parade, followed by the Friends of the Library Christmas Bazaar at the mall.

The parade will start at 10 a.m. at the usual gathering point in front of First Baptist Church and will follow the usual parade route.

Jointly sponsored by the Chamber of Commerce, Noon and Evening Lions, the parade will feature varied entries, and prizes will be given to those judged the best.

Entries will include the All-Star Twirlers from Temple, junior high and high school bands, floats by the Arts & Service League, Friends of the Library, Bethel AME Church, Senior Citizens and Mexican Patriotic Committee.

In addition there will be clowns to hand out balloons to the children, decorated cars and bikes, new cars and farm implements and machinery. The Tri-City Cobra Motorcycle Club will also be featured.

Santa Claus will ride in the parade in his sleigh, and afterwards will visit with children in the stores. Plans call for Santa to be on the mall on Saturdays, Dec. 10 and 17, to visit with children.

**BAZAAR**  
The bazaar will open on the mall following the parade, and in addition to arts and crafts and food booths, there will be live entertainment until the evening.

Scheduled to begin at 10:30 are the following events:  
10:30 - Yoe Band concert, O. J. Thomas band concert  
11 - The Ivory Sisters vocal duo  
11:30 - Mike Flores & Sons Band

12 Noon - Phil Smith vocal  
1 - John Dodd and his fiddling group from Milano  
1:30 - Yoe High Dixieland and German bands  
2 - Frank Luecke and his Quartet  
2:30 - German Folk Dancers  
3 - Beautiful Baby Contest  
4 - Buffalo Angell and his Fiddlers  
6 - The Wild Child disc jockey Aubrey Nelson  
7 - Yoe High Dixieland and German bands

Harold Riley will be MC and Charles McGregor will manage the PA system.

Entries for the baby contest will be taken up to the time of the contest, and everyone with children ages up to three are invited to enter. Portraits will be given as prizes.

**FIRST TO FILE** for the Democratic Primary election in 1978 is Tommy Chamberlain, Cameron businessman, who filed for the position of Constable Pct. 1.

## Trustees OK Contract With Gause

Cameron school board members agreed to enter into a contract with the Gause School District to assess and collect that district's taxes.

In a called meeting Monday night, the Gause school board met with Cameron board members and agreed to a fee of 6 percent of Gause collections as payment for the work. The fee will cover supplies used in assessing and collecting.

The Gause board will continue to render taxes and will keep its equalization board. The one-year contract will start in January.

In other business, trustees continued their review of school board policies, and the only vote taken

was on giving teachers with long tenure longer contracts.

Trustee Becky Magre said it would be a gesture of goodwill and appreciation to give teachers with ten years or longer service a two or three-year contract instead of the current one-year contract.

Magre said it would not cost the district anything and would make the older teachers happier.

Trustees Bill Hornung and Forrest Sapp opposed the move, saying it was not necessary. Lee Roy Doskocil said since he wasn't a teacher he'd "rather not get into it." Joe Walzel favored the motion and vote was 3-2 to reject, with Sapp, Hornung and Doskocil voting against and Magre and Walzel voting for it.

Magre also brought up the inventory tests for kindergarten students, which she noted were given in the fall but not in the spring. The tests are to point out educationally disadvantaged children when they register for kindergarten.

She said she felt a half day all year for kindergarten would be more effective than the present all-day for half a year. Supt. Buddy Dulin said the biggest problem in such a program would be busing for rural students.

Following discussion Dulin said

## Blake Elected CIF President

Gene Blake was elected president of the Cameron Industrial Foundation at a directors' meeting Monday. Other officers are Jim Camp, vice president, and Henry Siebman, treasurer.

Directors elected for new three-year terms are Blake, Larry Morrow, and John Davis. Directors appointed for one year include Richard Williams, Milton Schiller, Lawrence Zoltz, Anton Anderle, Gene Smitherman, and Frank Luecke.

## Powderpuff Football Game On Tap

The senior class of Yoe High will sponsor a powderpuff football game Thursday, Dec. 1 (tonight) at 7:30 p.m. at Yoe Field.

Tickets will be \$1.25 for adults and 75 cents for students and can be purchased from any senior class members. Tickets will also be available at the gate.

All proceeds will go toward financing the senior class trip.

he would make a study and see if such a change would be feasible.

The next item in the policies up for discussion was the school dress code, and Magre said she "had a lot to say about it." Hornung asked her if she wanted to do away with the code, but Magre said her objections had to do with wording -- using "she" and "he" instead of "student" which she said was discrimination.

She said the board could be challenged by federal authorities on the wording.

Since it was 9:30 p.m., the board adjourned and will finish reviewing the policies at its regular December meeting.

## Cecilia Conitz, Lisa Elmore Join Herald Staff

Cecilia Conitz Heinrich, of Calvert, has joined the news staff of The Cameron Herald in general assignments and contributor to the Happenings page.

And Lisa Elmore, of Cameron, has joined the staff of The Herald, according to Frank M. Luecke, editor-publisher.

Mrs. Heinrich is a graduate of Calvert High School and Sam Houston State University with a BS degree in art and English minor. She also studied at McLennan Junior College in Waco and has taught art and English in Texas school systems including Port Lavaca, El Campo, Galveston and Bremond.

She has been corresponding Calvert news for The Herald and the Hearne Democrat in recent months. She is also illustrating a book written by Esther Read, of Corpus Christi, and writing articles for magazine publication.

Miss Elmore has begun duties in the classified department of The Herald. She is a 1977 graduate of Yoe High School. She is the daughter of Mr. and Mrs. Paul Elmore, of Cameron.

Mrs. Heinrich is a flutist and is working on the formation of a community band in Calvert and will appear in a December production at Calvert Hotel Dinner Theatre.

Mrs. Heinrich is a member of the Conitz family, one of the pioneer families of Robertson County. She is the daughter of rancher and retired insurance salesman Alfred Conitz and artist Ellen Conitz.

### THE WAY IT WAS . . .

I remember one experience with the man when I was perhaps 9 years old. And it had to do with who introduced the potato to this country.

Strong willed, he said one thing; strong willed, as if I had a choice, I said another.

Okay, you're so smart. What does the encyclopedia say?

And into a set of Americana I went to discover forthwith the fact was I was perhaps more right than he was, right out of some text handler to me than him.

His point was to check "the source", if there was a source, to know. And if you know, the argument said to me, remember and use what you know.

He did.

He was to the dairy industry half century ago what innovators in space technology are today. Further, he went out and built with what he innovated. And if he couldn't do it himself, he went with money and muscle who would see his ideas through.

And in the Depression, there weren't many like that.

By comparison, the days of federal funding and long-term finance would have been his picnic ground.

He had a brother every bit like him. They are both now dead. They knew nothing of cowtrails and open spaces, but they were every bit the pioneers the West so well remembers.

The gift he leaves me, the youngest son, is knowledge that each must do, if each is to do, for himself in every generation.

Thanks, FMGL.

## Gas Rates To Increase For Rural Customers

The rate increase for natural gas approved by the Texas Railroad Commission Tuesday will only affect rural customers outside city limits, Lone Star Gas Manager Grady Allen said Wednesday.

The increase is for rural customers living outside incorporated cities, and will bring their rates up to the same as those living in cities.

Allen said the increase will affect only a small number of customers.

## Matyastik To Be Candidate For County Judge

Jane Rachel Matyastik, a practicing Cameron attorney, has announced that she will be a candidate for the office of Milam County judge, subject to the Democratic Primary election of 1978.

She was born and educated in Cameron, and received a bachelor of arts degree from The University of Texas then worked as a French translator for an international offshore drilling company. She attended the UT school of Law and received a Doctor of Jurisprudence degree.

Matyastik is the youngest daughter of the late W. P. Matyastik and Rose Svetlik Matyastik. After graduating from the UT School of Law, she returned to Cameron to open her law office and has been practicing law in Cameron since she was licensed and sworn in.

## Industry Pioneer Dies In Indiana

Memorial services will be Saturday in the Warsaw, Ind., home of son Kenneth for Frank M. G. Luecke, 83, who died 5 p.m. Tuesday after a five-month illness.

The retired cheese manufacturer had lived in Harlowton and Three Rivers, Mon., after a career spanning half a century in a half dozen Midwest states. He died in a convalescent home in Warsaw. Interment of ashes will be in Cascade, Wisc.

Luecke founded New Process Cheese Co., in Nixa, Mo., now a suburb of Springfield, in 1927, patenting a cheese production process which about 10 years later built the Missouri plant into the largest milk processing operation in the country.

He was born June 9, 1894, the son of Christian and Almada (Hicks) Luecke, himself a cheese manufacturer in Plymouth, Wisc. Luecke graduated from Plymouth High School, served in the Wisconsin National Guard during World War I and moved to Missouri in the mid-20s.

The Lueckes began manufacturing cheese in Wisconsin in the 1860s.

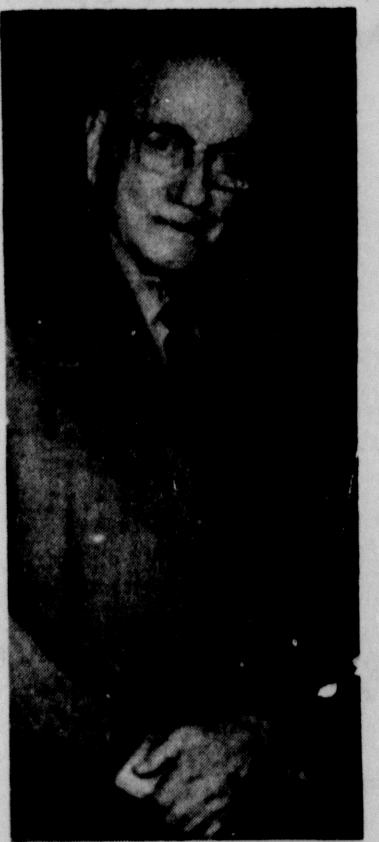

He joined Wilson & Co. in the early 1930s and alternately managed Wilson plants in Missouri, Oklahoma and Indiana. He later founded cheese operations in Warsaw and Nappanee, Ind., and worked in management posts for Cudahy Packing and Spada Cheese companies in Ohio and Michigan. In pre-retirement years, he worked with a South Bend, Ind., trucking firm.

His testimony on parity before

Congressional committees played a significant role in establishing milk pricing policies in the post-World War II dairy industry.

Survivors are: one daughter, Mrs. E. Myles Glenn, of Kalamazoo, Mich.; a sister, Etta Luecke, of Milwaukee, Wisc.; four sons, Kenneth G. Luecke, of Warsaw, Ind.; Charles M. F. Luecke, of Venice, Fla.; Frank M. G. Luecke Jr., of Cameron, Tx.; Charles McQuitty, of St. Joseph, Mo.; nine grandchildren and three great grandchildren.

Memorials may be given to the American Cancer Society.

## Public's Professionals...

Cameron has done an exceptional job in funding and helping build hospital facilities adequate for a modern small city.

A problem of adequate numbers of doctors is gradually being alleviated by addition of two new doctors in the past year and addition of a staff surgeon at St. Edward Hospital.

We agree with the Cameron Area Chamber's opposition to closing down or sharply curtailing small hospitals. Half of the funding of local hospital facilities came through Hill-Burton auspices, funneling federal money through state control to Cameron and dozens of other communities in Texas, including Rockdale, Temple and Taylor, among others.

And now Dept. of Health Education and Welfare wants to take these facilities away or curtail their use.

If hospital facilities are not being used in this area, it is for lack of adequate numbers of doctors and nurses. The professional needs in small city hospitals are acute.

But it is not because people wouldn't fill those beds if services are available.

"Sixty Minutes" on CBS last Sunday noted the politics of hospital construction in a New Orleans Navy hos-

pital of 250 beds, grossly oversized and understaffed.

A policy of closing small-town hospitals after building hundreds with hundreds of millions of federal dollars is unwise and ill-timed. The shift to hospital service needed in non-metro areas will go with the mobile population finding small cities and suburbs to their liking.

Cameron and Rockdale and other communities of similar size in Central Texas easily qualify for new population along with new industry. It would be absurd to close down Cameron hospitals at this time, though efficiencies and even consolidation of some services may be possible.

The high cost of medical services, which are astronomical compared to even five years ago, won't be diminished so much by closing small hospitals.

The cost of transporting patients is a major factor and overcrowding of existing facilities in larger towns and cities would be inevitable.

While the medical profession will come to their cost senses sooner than later, the field should not be strapped by closing those hospitals which serve the public and its professionals.

## State's Economic Picture Looks Good

Legislative tax policy planners received a super-rosy picture of the state's economic outlook and governmental income potential.

One storm cloud on the horizon, however, is the uncertain energy picture and, particularly, the specter of an "anti-Texas" federal energy passage emerging from congress.

"Everything looks good," Houston economist George Crosby told the House Ways and Means Committee at a special hearing here. "The energy situation is the main uncertainty."

Crosby noted Texas is the fastest-growing state among the top 20, unemployment is below the U.S. average and declining, and an increase in industrial plant construction is offsetting a decline in residential building.

Bill Allaway, a revenue estimator for State Comptroller Bob Bullock, said income from the sales tax bill will continue to increase at the rate of 11.8 per cent and 11.3 per cent during the next two years—reaching a total of \$4 billion for the 1978-79 fiscal period.

In spite of a decline in production, natural gas taxes also are continuing to increase. Severance taxes on gas are expected to reach \$550 million in 1978 and \$670 million in 1979, according to Allaway's forecast.

The Ways and Means Committee also was reminded that Texas is one of three states which taxes gasoline at under seven cents a gallon (five cents). At four per cent, the Texas sales tax is about mid-range for the nation. The cigarette tax is among the highest (18.5 cents a pack). The gas severance tax also is among the highest, and the oil severance tax rate about mid-way for the oil-producing states.

### Outside Sales Approved

Texas Railroad Commission allowed a major Texas gas distributor to sell surplus natural gas out of state without prior approval.

Lo-Vaca Gathering Company, however, must credit part of the profits from such short-term interstate sales to Texas consumers, the commission determined.

The commission said the surplus sales could have as much as seven to 12 cents per thousand cubic feet effect on potential gas cost increases.

The interstate sales further would have to be interrupted and gas returned to Texas when needed by residential consumers. Copies and detailed descriptions of each sales contract must be filed with the commission for subsequent review.

### Logs Are A Luxury

Wood for the home fireplace is becoming a luxury fuel, depending on where and how you buy it, according to Agriculture Commissioner Reagan V. Brown.

Brown's survey noted wood which sold for \$30 to \$35 a cord two years ago, mixed loads of green and dry firewood, now ranges from \$60 to \$95, with some quoted as high as \$120 a cord.

Brown advised wood buyers to be aware of how much wood makes up a legal cord. He said a rick can be a ripoff since there is no legal definition of that measure, and there is no definite number attached to "a pickup load."

A legal cord of wood is a reasonably tight stack of logs measuring four feet wide, four feet high and eight feet long, or 128 cubic feet. Prices vary. In Central Texas, oak is quoted at \$60 to \$70 a cord. In metropolitan Houston and Dallas, though, oak will cost you \$75 to \$90 a cord. Mesquite is also bringing \$95 to \$120 in Houston and Dallas.

### Attorney General Opinions

A city may lease a spoil disposal site for production of marine life (mariculture), Atty. Gen. John Hill determined. In other recent opinions, Hill concluded:

The Board of Nurse Examiners can promulgate rules regarding the use of titles indicating that a person is a licensed registered nurse. Prosecution must be based on violation of the law, not the rule.

Policy of the Adjutant General's Department requiring employees to retire when they become eligible for two annuities, such as military reserve retirement benefits and reduced social security benefits, is invalid.

A periodic listing of new Texas businesses in Texas Employment Commission files is public information.

Wilson County Memorial Hospital District includes all of Wilson County except those portions previously included within the Nixon Hospital District.

### Federal, State Courts Speak

The Fifth Circuit Court of Appeals sent back to the U.S. District Court at Tyler an order of major changes and additions to Texas Youth Council programs. The higher court said the lower court erred in refusing to let TYC offer additional evidence of reforms it had made since the 1973 trial.

The U.S. Supreme Court has set arguments December 7 in a case testing federal agency powers to order Texas

## OLD PHILOSOPHER

Dear editor:

In these troublesome times, although as far as I can tell nearly all times in the history of the world have been troublesome, there are some things that take priority over others. For example, when the net works interrupted a football game a couple of weeks ago to flash some news about Sadat's trip to Israel, telephone switchboards at TV stations all around the country lit up with protests from sports fans.

You see, the Mid-East will never become fully civilized until it becomes normal for a network to say, "We interrupt this war to bring you the score of the Super Bowl game."

Therefore, recognizing what takes priority, I'd like to plunge right into a grave matter now both-er professional football. It's the matter of penalties.

Players are saying the officials are making some bad calls and missing some good ones. They'll call pass interference when it wasn't especially at crucial times, and miss three-fourths of the others. When a fight breaks out, they'll throw out the wrong

guy.

The players are being unreasonable. How can they expect five or six officials to keep up with twenty-two players jumbled up on a football field 100 yards long? And all trying to win by whatever means because their salary depends on it.

But like Congress, most people had rather fuss and fume about something than do something about it.

Actually the solution is simple. Every game should have twenty-two officials, each assigned to just one player with instruction to never take his eyes off of him. While I realize that on nearly every play yellow flags flying in the air would look like balloons being released at half-time, you have got to admit few rule infractions would go undetected.

At the same time, attendance might drop off disastrously as fans discovered they couldn't see the players for the officials. It'd be like going to a car-racing event and never seeing any smash-ups. I give up. Next week I'll solve the Mid-East problem.

Yours faithfully,  
J. A.

natural gas diverted into the national pipeline system against wishes of the owner.

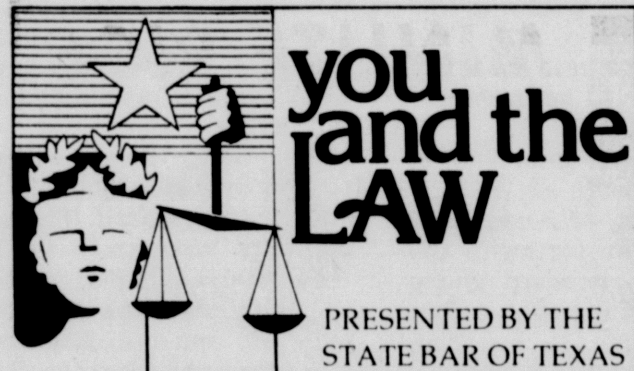

Atty. Gen. Hill is appealing a federal district court decision which, he says, could permit national banks to act as unauthorized insurance agents.

A Houston probate court hearing on the Howard Hughes estate case has been recessed until December 5 after attorneys for the temporary executors claimed Assistant Atty. Gen. Rick Harrison prevented them from getting a deposition from longtime Hughes aide Noah Dietrich. Meanwhile, the State of California is trying to stop the Houston proceedings by U.S. Supreme Court order.

### Short Snorts

The Railroad Commission has denied protests of 17 Texas cities against Lone Star Gas Co.'s accuracy in figuring costs of gas based on out-of-period adjustments.

New voter registration certificates for 1978-79 are being mailed to registered Texas voters this month. The old certificates should be used for voting until next March 1.

**Q: I was born in Texas and I suppose I'd be considered a resident. I am now living with my wife and child in another country where I work. All my property is cash and stocks in out-of-state companies, except for a car and household furnishings located for the most part outside the United States. If I should die outside the U.S., would a Texas probate court have jurisdiction?**

**A:** This is really not a jurisdiction question. There is no proof that you have any property in Texas over which a probate court would have jurisdiction. There is no requirement that you have your estate administered if you have the assets of your estate properly accounted for and transferred. But if you have your property in Texas then a Texas Court would have jurisdiction.

**Q: My husband was previously married, and the divorce decree specifies that life insurance policies owned as of the divorce would pay 80% to his children and 20% to a future wife, if he was to remarry. Could he cancel the old policies? Could he name me as the sole beneficiary of a new policy?**

**A:** Insurance policies are property which can be dealt with by a trial judge in a divorce decree. If your husband is the owner of the policies then he could change the beneficiaries. But if his ex-wife was given ownership of the policies, then he would be powerless to change them in any way. Plus, there is the possibility that he contracted with his ex-wife to keep the policies

as they are making it impossible for him to change them. It is completely within his power to take out a new policy and place you as beneficiary.

**Q: I am a widow. For the past 17 months, I've been living with a man who has been separated from his wife for two years. He has introduced me as his wife on several occasions, and I use his name. Should anything happen to him, what would my legal status be?**

**A:** You have no rights to his estate as a wife. Just because he calls you a wife does not change the fact that he is still married. There must be a final divorce decree before you would have the opportunity to be a common law wife. You would have the rights of a tenant in common to all property which you two have acquired together.

**Q: We're planning on buying five acres in the country with a house. But we discovered this property is subject to outstanding mineral rights. We're buying the property to use as a residence rather than for mineral exploration, but we're not sure whether this mineral interest will affect our rights to the property.**

**A:** An outstanding mineral interest may seriously affect the use of property as a residence. The owner of a mineral interest may have the right to enter the property and remove the minerals from around your house in a reasonable manner.

## County Agent's Notes

### Brucellosis Is Still Major Problem Here

By Bill McCutchen  
Milam County Extension Agent  
Brucellosis continues to be a major problem in Milam County. Why does brucellosis continue to be such a serious problem? There are several reasons --

-- Lack of immunity in breeding herds. This can be strengthened by a continuing program of calfhood vaccination of all beef and dairy heifers using Strain 19 brucella abortus vaccine. This is effective. Check with your veterinarian.

-- Failure to separate "heavy springers" and calving animals from the breeding herd. The disease is spread more frequently when a reactor animal aborts or during calving.

-- Failure to test the complete herd on each test. Testing only the cattle in the same pasture where a reactor is found is not adequate if other cattle on the ranch are not tested. Unrecognized reactors may continue to spread the disease.

-- Failure to separate or isolate test reactors or aborting animals from the herd at the earliest opportunity. Reactors and those animals aborting because of brucellosis can continue to spread the disease.

-- Failure to isolate and re-test purchased replacements before adding to the herd. One test is not enough if the source of cattle is not free of brucellosis. Most people buy their brucellosis test purchased replacements before adding to the herd. One test is not enough if the source of

cattle is not free of brucellosis. Most people buy their brucellosis problems.

-- Failure to retest quarantine herds at the proper time interval.

Unless producers pay closer attention to ridding their herds of brucellosis, the disease will continue to cause serious problems.

#### BRUSH CONTROL

As dry weather continues, now is a good time to control mesquite and some of your other woody plant problems using a basal spray of 2, 4, 5-T in diesel oil on individual trunks. If you have just a few trees or shrubs or seedlings to control, use 1-1/2 ounces or 2-1/2 tablespoons of 4 pounds per gallon 2, 4, 5-T formulation per gallon of oil on mesquite, bois d'arc, hackberry, sumac, willow, or eastern persimmon. Tougher species may require a double concentration of 2, 4, 5-T per gallon of oil. Some of these tough plants include elm, black-jack, hickory, and post oak.

Spray the bottom 10 inches of trunk all the way around until the material runs down to the ground line. Best results are obtained on mesquite when the soil is dry and shrunken back from the trunk.

### Workshop Set For Community Development

By John E. Snell  
Milam County Extension Agent

What is leadership? How can I be more effective as an individual in a committee? How can I structure a meeting to make it more productive? These are only a few of the questions that will be answered in the Community Development Workshop for interested Milam County citizens.

This workshop will provide training and experience for local people to help them better perform their role of working with and involving people.

The workshop will be held in a series of three sessions. The first session will be held on December 5 at 7 p.m. in the Gause Community Center. John Henry, area community resource development specialist for the Texas Agricultural Extension Service, will assist with conducting the workshop.

The first session on December 5 will explore how to be more effective as an individual in a committee.

The second session concerns planning and conducting productive committee meetings. The last session deals with how to plan and conduct successful club and community projects. The dates for the second and third sessions will be announced in the future. Those persons completing all three sessions will be presented a certificate.

The job of a good leader is a very important one and challenging responsibility. If you need additional information concerning this activity, please contact your County Extension Office at the Courthouse in Cameron or call 697-3382.

OLD-TIMERS MEET - Dell Fuller of Cameron, right, and L. A. Young of Gause paused to have a get together at Gibson's and talk about the Civil War. Fuller is 93 and Young is 99, and both still manage to get around pretty well in spite of their years.

## Texas Producers Dislike Food Policy

The foreign and domestic food policy of the United States is generally held in disfavor by Texas farmers and ranchers, a recent survey shows.

The survey, conducted by Dr. Ronald Knutson, economist in marketing and policy with the Texas Agricultural Extension Service, shows that the majority of Texas producers favor a reduction in the food stamp program and a tightening foreign food aid program.

"Regarding the food stamp program, producers voiced strong feelings that people should work for a living and that only those families in extreme poverty or receiving a minimum level of nutrition should receive aid," noted Knutson. "They felt strongly that the food stamp program has gotten out of hand in terms of size and scope. Although beef and milk producers are the greatest beneficiaries of the program, their attitudes varied little from other producers."

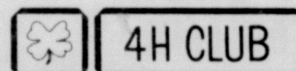

Knutson pointed out that the domestic food aid program has been expanded to attract the support of urban congressmen for the new farm bill just passed. This program is administered by the U. S. Department of Agriculture and last year took 60 percent of the department's budget. In addition to food stamps, the program includes school lunches and child nutrition.

"As far as foreign food aid is concerned, most Texas agricultural producers felt this should be limited primarily to emergency situations," said Knutson. "They favor efforts by the recipient country to control population as well as to increase food production as a condition for foreign food aid. In actuality, however, such food aid programs tend to increase dependence on aid, foster further population growth, depress prices in the recipient countries, and thus reduce incentives to produce."

"On the 'right to food' issue, Texas agricultural producers again showed their displeasure of any give-away program without

a willingness on the part of the recipient to care for himself and work for a living. They feel that a 'right to food' exists only for those who have the financial resources to buy on the open market and who are willing to work," noted the economist.

"Domestic and foreign food aid programs will continue to be major political issues in the years ahead," emphasized Knutson. "They are issues that are receiving strong reaction from consumers, government officials, Third World nations and the church, and they will continue to have marked effects on agricultural producers."

By Joe D. Janak, Jr.

On November 17th, Dennis Tomascik and Joe Janak judged the Farm Bureau gilt program. The projects were judged on the number of pigs raised, weight of pigs at 60 days, feeding and management, sanitation, and disease control, and records. Points were tabulated with the final results given in this order.

The Farm Bureau then will award them with the prize money: 1st place, Clifton Salter \$15; 2nd place, Susan Hicks \$10; 3rd place, Marvin Rodenbeck \$7 and 4th place Donna Hause \$5.

The best gilts were then picked out of each litter and given to these 4-H'ers to show at the county show and be in the program for the next year. They are Shari Spence, Billy Kornegay, Paul Runyons, and Nathaniel Whitfield.

Twenty-three 4-H'ers received broilers Tuesday, November 22 at 4 p.m. at the Mall in Cameron. Thank you notes need to be sent to the sponsors as well as the five broilers which will be given to them at show time. The broilers will need to be entered in the county show and entry blanks are available from the Extension office.

## News From Gause

By Mrs. Wanda Lee

Billy Kornegay, Kevin Coats and Lance Lee from the Gause 4-H Club were in Cameron last Tuesday where they each received 50 baby chicks. This is the broiler program which is sponsored by the Cameron Chamber of Commerce. The County Livestock Show will be held January 13-14. Each of the 34 youth who received chicks will show their top five broilers at the show with each giving the five to their sponsor.

Our 4-H Club will have a float entry in the Cameron Christmas Parade Saturday morning and the Rockdale Christmas Parade Saturday afternoon. The Saturday the 10th of December they will be in the Hearne Parade.

Mrs. Bernice Longmire of Minerva spent several days this past week with Mr. and Mrs. Malcolm Timmons.

Mrs. Lucille Erwin has been visiting with Mr. and Mrs. Louis Lange.

Mr. and Mrs. Raymond Slay and Cheryl spent Thanksgiving in Arlington with Bob and Sandra Carmichael and Tristan.

Mrs. Emmagene Bland, Lillie Harris and Mary Bowling were guests Thanksgiving day with Rev. and Mrs. Thomas Dusek, Lanny and "T" and Rev. Dusek's mother at their home near Cameron.

Mr. and Mrs. Alfred Coats, Ray and Kevin and Mrs. Mildred Ely joined other relatives for Thanksgiving dinner with Mr. and Mrs. David Wilkins and family in Pasadena.

Mr. and Mrs. Roger Kinglsey spent Thanksgiving in Hearne with his sister, Mrs. Joe Maguire.

Thanksgiving guests with Mr. and Mrs. Earl Hardcastle, Buck and Bob included Mr. and Mrs. Walter Vande Weghe and three daughters, Monty Jones and Mr. and Mrs. Harold Van de Weghe and two children of Mexia, Mrs. Stubbs, Mr. and Mrs. Jimmy Stubbs and son, Toni Hunt, all of Hearne, Marilyn Bishop of Tabor, Mr. and Mrs. Billy Earl Hardcastle and family of Angleton, Martha Ann Thornton and children of Houston.

Mr. and Mrs. Keith McWilliams, Kelli and Russ and Mrs. Louise Spraggins of Hearne spent Thanksgiving Day with Mr. and Mrs. W. L. Ditto. Friday Mr. and Mrs. Ditto went to Humble and spent the day with her brother Mr. and Mrs. S. C. Sanders.

Saturday visitors with Mrs. Ethel Mitchell were her sons and families, Mr. and Mrs. Tommy Ray Mitchell and two children of Freeport, Mr. and Mrs. Paul Mitchell and children and Mr. and Mrs. Joe Mitchell and children of Hearne. Her sister and brother-in-law, Mr. and Mrs. Leonard Morgan also joined them for the day.

The Gilbert Turners of Houston spent the holidays at their country home here.

Mr. and Mrs. Bud Walker Jr., Herbert and Dennis entertained the following relatives at their home Thanksgiving Day for din-

ner, Mr. and Mrs. S. E. Dibble and Kay of Houston, Mike Dibble of New Orleans, La., Mr. and Mrs. Mike Walker and Misty of Navasota, Dee Ann Walker of Gauseville, Mr. and Mrs. H. M. Walker Sr., Mr. and Mrs. D. A. Dibble Jr., Mr. and Mrs. Mark Dibble and Edward, Rufus Haffley, Ben Murrey and Tommy Murrey all of Gause.

Roah and Helen Miller spent a few days at Thanksgiving in Pitkin, Louisiana with Maurice, Myrtis and Bonnie Bowling. Thanksgiving afternoon they all drove over to Elmer, Louisiana and visited with the Charley Todd family. Also visiting Charley's family were J. T. and Burnelle Todd and grandchildren, Todd, Craig and Denise Dent. An enjoyable day was the result.

On Saturday as Roah and Helen were returning to Gause, they stopped in Leesville, Louisiana where they had a good visit with Mrs. Laura Ward. They also went next door to see Laura's daughter and son-in-law, Lucille and Jimmy Fletcher, who gave them a tour of their beautiful new home with a view of a lake through the tall pines.

Last week I mentioned that Roah and Helen recently "camped out" on a trip they took, and nearly froze. She said she saw people with visions of them sleeping under a tree, but actually there were in their camper, just didn't take enough blankets for the 33 degree temperature.

Mr. and Mrs. John Bowling spent Thanksgiving Day in Hearne with their son and daughter-in-law, Mr. and Mrs. Paul Bowling and other relatives.

Michael Kent Cernuch was born to Mike and Sandra Cernuch on November 21st at St. Edward Hospital in Cameron. He weighed 8 pounds at birth. Paternal grandparents are Mr. and Mrs. Chuck Cernuch of Gause and maternal grandparents are Mr. and Mrs. Kent Thurman of Milano.

### Talking animals!

AUSTIN, Texas (Spl.) — "Quiet, please. Animals communicating."

That could be the slogan for a University of Texas scientist who has documented that gerbils communicate with each other through ultrasonic calls (unheard by humans) and olfactory cues.

Dr. Delbert Thiessen says gerbils emit an ultrasonic sound by compressing their lungs through sudden body movements to pass air over their larynxes. Gerbils also use glandular secretions as cues for grooming and marking territory.

The sounds and scents, communicating subtle messages as to sex and well-being, are important in helping gerbils choose genetically fit mates, says Dr. Thiessen.

### Lone Star Gas suggests HOW TO WRING ALL THE HOT WATER FROM YOUR ENERGY DOLLAR.

Set the water heater thermostat at NORMAL, which is hot enough for most household requirements. If more hot water is needed temporarily, move the setting to HOT, then reset to NORMAL.

Remember that a brief shower normally uses less hot water than a tub bath. Avoid letting hot water run needlessly when shaving, washing hands, rinsing dishes. Save hot water and the energy it takes to heat it by fixing dripping faucets. Save hot water and energy by waiting until you have full loads for the washer and dishwasher.

Drain a gallon or more of water from the faucet at the base of the water heater about once a month. This prevents a

buildup of mineral deposits. And this buildup causes the water heater to work harder and use more gas.

Remarkably efficient gas reaches your meter with 93% of its original energy still available — because gas is a natural energy that's used in its original form. Using it directly for the jobs it does best actually helps conserve energy.

For more suggestions, request our free booklet, "Energy Conservation in the Home."

## Show To Feature Director, Calvert Hotel Players

A large room of concrete blocks, a network of pipes and wires, movable equipment, sets, and drapes, people standing, waiting quietly, and children standing in awe, dressed as if for a Halloween party, were all a part of the scene of KAMU-TV in Bryan Monday afternoon November 21.

"Quiet." Someone orders from a darkened part of the room. "Stand by. Stand by." Another order is given.

A hand is raised from behind a camera. As it drops back into the darkness, the children begin to sing "Old McDonald Had A Farm."

Portions of the Children's Musical presented at the Calvert Hotel Dinner Theatre November 19 were taped at KAMU-TV under the direction of Linda Higgenbotham. Higgenbotham is a producer-director at KAMU. Lawrence Leach of KAMU conducted an interview with Larry Horn which was to be combined with tapes of the children. Horn taught and directed the children in the musical. Roger Lewis, also a producer and director at KAMU, worked with the crew during the taping session.

## CALVERT NOTES

By Cecelia Conitz Heinrich  
Families and friends gathered to share turkey, ham, roast, and all those things which add to a Thanksgiving Day feast. Those who usually enjoyed the rivalry of the "Turkey Day Game," the traditional football game between Texas A&M and the University of Texas, had to find other entertainment. The traditional game was not played until Saturday this year. There was plenty of football on television for football fans, however. For those not interested in televised football games, there was visiting, working in the yard, riding around town, practicing piano or singing, or walking around town.

Some people whose families have dwindled, heated TV dinners and spent a quiet day at home. Some people carried on during the day, but thoughts were on past days when the house rang with happy talk and laughter of loved ones now gone. Some were alone. Some people worked as usual. And, with a lot of colds and sinus infections around, some people spent the day in bed and could only boast of a dinner of canned soup.

Thanksgiving brought a beautiful day with mild temperatures and sunshine. However many people would be thankful for some rain.

Traffic in both northbound and southbound lanes of Highway 6 was extremely heavy during the long holiday weekend, encouraging some residents to stay in Calvert rather than get into the lines of cars.

Mr. and Mrs. Albert Judkins spent Thursday in Hubbard.

Marianne and Gene Gibson III of Dallas, Jane and Bill Gibson of Fairfield, and Kay Hall and her son Gregg, of Temple, were in Calvert for Thanksgiving with Mr. and Mrs. Gene Gibson.

Mr. and Mrs. A. B. Cook had 37 people in their home for Thanksgiving, including their daughter and new son-in-law, Anita and Martez Jafari. This was the Jafari's first trip to Calvert since their marriage. They are living in Oklahoma.

Hulen Ford of Dallas, Charles Ford of Kaufman, and Norma Jean Pettiette of Houston brought their families to spend Thanksgiving with Mr. and Mrs. C. R. Ford.

Bertha Hanhart spent the week end with her mother and stepfather, Mr. and Mrs. Marvin Terry and had lunch with her sister, Violet Murdock in Boerne.

Robert and Max Hanhart joined in a family get-together with Mr. and Mrs. James Estep Jr. and family in Manor. Mrs. Estep Pauline, is Max Hanhart's daughter.

Mr. and Mrs. Fred Rector had as their guests over the Thanksgiving weekend, Mrs. Fred Rector, Mr. Rector's mother; Mrs. Janie Hobbs, his grandmother and Mr. and Mrs. Raymond Smith, his aunt and uncle, from Nacogdoches.

Mozelle Wilson of Dallas and Sue Johnson of Waco visited Th-

elma Conitz on Wednesday.

Laura Wiese of Dallas visited with her parents Mr. and Mrs. Cooper Wiese over the Thanksgiving Holidays. Joe Munger of Dallas was also a visitor in the Wiese home.

Nanette Klawetter visited her brothers, Billy and Gene Klawetter.

Mr. and Mrs. B. A. Richey spent four days with their daughter Mrs. Paul Kearn, in Baytown. Thanksgiving was spent with their son, Ben Richey, in Houston.

Helen and Jane Anderson were in Calvert to spend the Thanksgiving holiday with their parents, Mr. and Mrs. Wesley Anderson.

The Darrell Elmores of Dallas were in Calvert over the Thanksgiving holidays. The Elmores have bought Mrs. Margaret Adoue McCrary's house.

Mrs. Laura Ann Rau and her aunt, Mrs. Laura Everet Brash-ear, both of Columbus, and involved with the state historical grants board, visited in Calvert with the Elmores.

Mr. and Mrs. Randolph Wheelless and their children of Houston and Mrs. Bill Grigsby of Houston were Calvert visitors.

Bicker Cain has been in the hospital and is now at home. Marie O'Neill, owner of the newly opened Mustard Seed antique shop, has been undergoing tests in a Houston hospital.

Barbara Conitz of Port Lavaca was in Calvert to spend the holiday weekend with her parents, Mr. and Mrs. A. E. Conitz. Mr. and Mrs. C. I. Livingston of Ft. Worth, Linda Livingston of Irving, and Charles Livingston of Austin were guests in the Conitz home for Thanksgiving day.

New Target  
For Prospectors,  
Says Alcoa

There's a new target for prospectors, who once streamed to the western frontier in search for gold and silver. A free brochure from Aluminum Company of America tells modern prospectors -- north, east, south and west -- how to find a valuable metal in abundance much closer to home.

The metal is aluminum. The brochure is "The New Prospectors." It describes the new "mother lode" -- used-aluminum beverage cans. The cans are worth \$340 a ton. The brochure tells modern prospectors how to collect the cans for recycling.

Most people collect aluminum cans for extra income. But they are also striking a blow for a cleaner environment and for important savings in energy -- and earning money in the process.

Alcoa's can collection centers in Texas are located in Houston and Dallas - Fort Worth area. The Houston recycling plant processed more than 184 million scrap cans in its first year of operating, representing more than 40 percent of all aluminum cans sold in Texas. Company officials estimate it will recycle 45 to 50 percent of the state's aluminum cans during its second year.

For a copy of the brochure, write to The New Prospectors, Voluntary Reclamation Program Manager, Aluminum Company of America, 818 Alcoa Building, Pittsburgh, Pa. 15219.

## Concrete bridges lead 'double' lives

AUSTIN, Texas (Spl.) — A process has been developed by University of Texas engineers that could double the life of concrete bridges.

The process impregnates concrete with a polymer (a plastic-like material similar to Plexiglas) that seals the surface without changing its appearance. The treated concrete is stronger, skid resistant, highly resistant to acid and water adsorption, and able to withstand up to 15 times the average freeze-thaw stress of non-treated surfaces.

The first commercial application of the sealant process was made recently on a railroad overpass in Big Spring.

SAM SACKS SAM . . . Rockdales Sam Ellis moves in quick to wrap up McGregor Quarterback Sam Haynes for no gain. A potent Rockdale defense teamed up to grab four interceptions to aid the Tigers winning effort.

# Rockdale Takes Regional Title... On The Way To State

Story & Photos  
By Mike Peck

The Rockdale Tigers may be well on the way to a repeat performance of last years state championship as they continue to follow their statebound path Saturday night, defeating the McGregor Bulldogs 31-15 in Regional football action at Baylor Stadium.

The Rockdale capitalized on four interceptions and three fumble recoveries to nab the win. The Tigers wasted no time

getting on the scoreboard, putting their first six of the night up with 11:41 left in the opening period. On first down and ten for the Bulldogs, runningback Kermit Farmer was separated from the ball and Rockdale's Ricky Davidson recovered for the Tigers on the McGregor 30 yard line. It took the Tigers only eight seconds and one play to reach paydirt as fullback Kerry Locklin got the call, racing the distance for the score. Jimmy Morton added the extra point and Rock-

dale was in command 7-0.

The Bulldogs regrouped quickly, as on their second possession of the night managed six points of their own. The drive went 61 yards in ten plays with quarterback Rodney Morgan carrying seven of the ten, the last a one yard scamper into the endzone. Alex Goff added the PAT to even the score at 7 all, with 7:09 left in the first stanza.

An 11 yard McGregor punt put the Tigers back in good field position at the Bulldog 30. Again it took the Tigers only one play to go the distance for the score. Halfback Don Wesley did the honors this time, sprinting the thirty-yards to pay dirt. Morton again added the extra point and the Tigers were back out in front 14-7.

Wesley had another touchdown scamper of 55 yards called back midway through the second quarter after a clipping penalty, and Sammie Haynes, Bulldog quarterback (replacing Morgan) went 27 yards into paydirt only to have the run cancelled by a penalty, leaving the teams even up on callbacks when the first half ended, but Rockdale owning the scoreboard 14-7.

Three plays into the second half the Tigers again found themselves in good field position at the McGregor 40 after Tiger Ricky Davidson pounced on a loose Bulldog football. An eight play drive, capped by a 27 yard field goal off the toe of Tiger Jimmy Morton netted three giving the Tigers a 10 point advantage 17-7, with 7:54 remaining in the third period.

The Tigers added one more score in the third period. Quarterback Scott Sparks went to the air, connecting with Larry Cruz for

52 yards to set up the score. Wesley was again called on to do the scoring chores, taking the ball eight yards for the points. Morton added the PAT and the Tigers led 24-7 with 1:59 left in the third stanza.

But the old dogs tried some new tricks. After a short Sparks punt Bulldog field general Haynes took the pigskin 20 yards on first down for the six. Haynes then went aerial on a two point conversion to Benny Wiley, and with 8:17 left in the game the Bulldogs were on the go moving to within nine points of the Tigers 24-15.

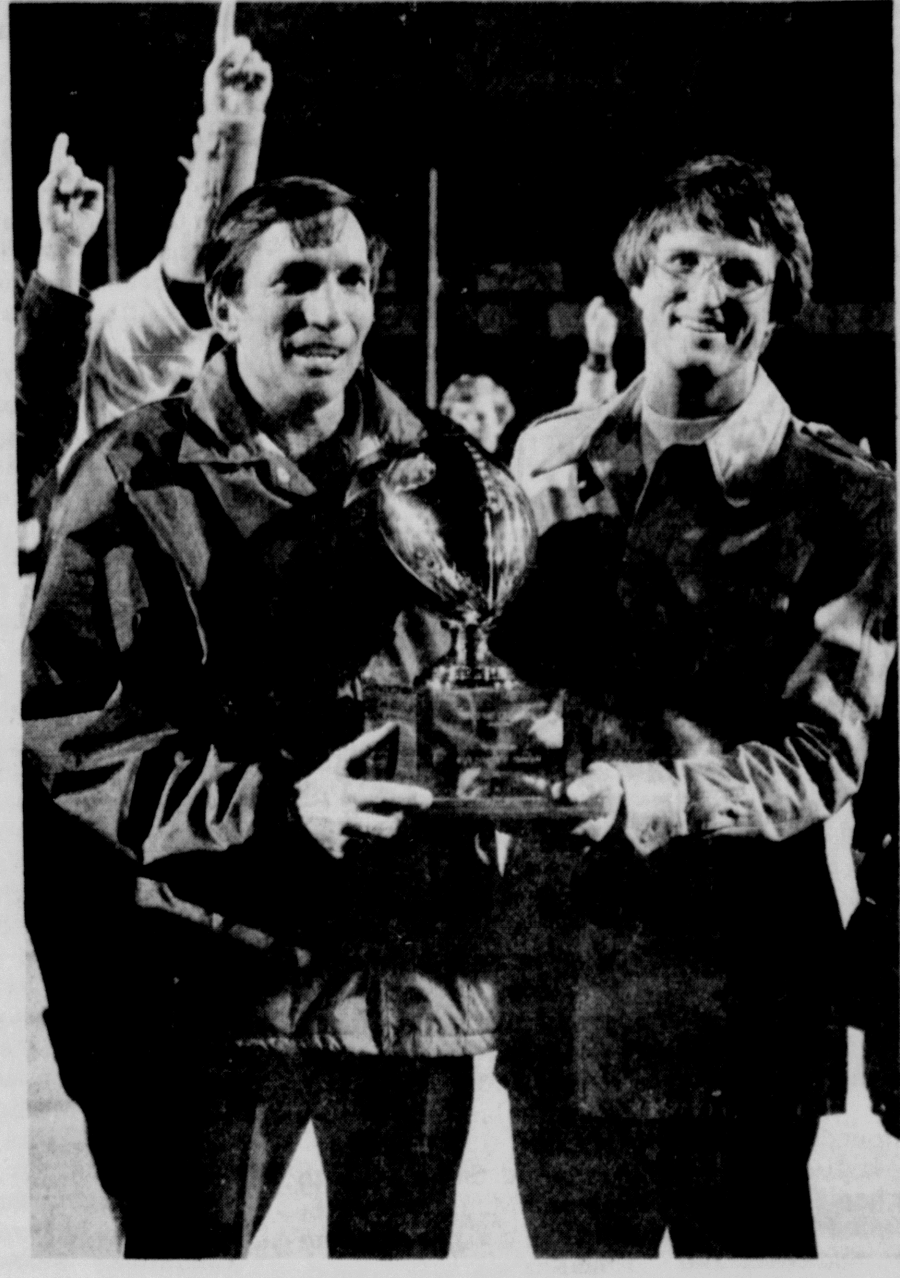

Things began to look up for the Bulldogs as a 55 yard punt by Paul Fox left Rockdale deep in their own territory at the one yard line.

With their backs to the goal the Tigers unleashed a fierce ground attack, as Locklin scampered 45 yards on one carry and 31 on another, but a Sparks fumble on the Bulldog three ended hopes of another score.

Only seconds later Tiger Morton picked off a Haynes aerial, returning it 13 yards for the final score of the night. Morton also added the extra point, making the final score 31-15 and advancing the Tigers to quarterfinal play this Saturday night against Bellville.

The win puts the Tigers at 11-1 for the season.

## Tigers Brace For Quarterfinal Tilt

By: Mike Peck

The Rockdale Tigers hot off a 31-15 Regional win over the McGregor Bulldogs have already donned their pads and hit the plastic grass of Austin's Memorial Stadium in preparation for their 8 p.m. Quarterfinal contest against the Bellville Brahmas this Friday night.

The Tigers will face what appears to be their toughest opponent of the year, as the Brahmas hold a perfect 12-0 record for the season while the Tigers hold the near unblemished record of 11-1.

Defensively the Brahmas are known to bend but not break with their most potent defense being activated inside the 20 yardlines. While allowing their previous opponents to drive the ball to well within scoring range the Brahmas have successfully shut down the drive inside the twenties.

Middle linebacker Paul Albert #70 and Rover, Joe Tettlette will be the Brahmas to watch, weighing in at 214 and 211 respectively, both have speed and quickness and seem to come up with the big play.

Defensive players rounding out the Bellville lineup will be #85 David Bartay at defensive end, #88 Jerry Reese at right tackle, #54 Steve Jackson at right guard, #44 Edward Leaks at left guard, #72 Ike King at left tackle, #24 Alan Ward at left defensive end, #33 John Jackson at right defensive halfback, #26 Reese Burger at safety, #40 Dwayne Bryant.

The Tigers defense will include #52 Rick Davidson at left guard, #75 Lewis Stewart at right guard, #77 Randy Flores at right tackle, right defensive end #32 Billy Light, #71 Leigh Shepard left tackle, #31 Jimmy Joe Morton at left defensive end, Sam Ellis #84 at right line-backer, Kerry Locklin #12 at left linebacker, left halfback #33 Gene Grayson, safety #22 Everett Watson and Jay Bob Roe #23 at the right halfback position.

Offense will be a carbon copy for the night's action as the Tigers and the Brahmas run a veer offense that is near identical. Both have consistent ground games and passing is almost nonexistent.

The Brahmas' offense relies heavily on the strong running of their quarterback Rusty Parker, as he is a strong, quick runner. #60 guard Joe Tettlette and #70 Paul Albert will be offensive linemen to watch, as the Brahama offense will consistently run to their side of the offensive line. The Brahama offense has averaged 400 yards per game.

Center, Jackson, #65 left guard Frank Krumrey, left tackle King, tight end Reese, left half-back Burger, wingback #22 Randall Barton, split end #16 Gary Travis and the Brahmas' key running back Alan Ward will complete the offensive list.

The Tiger offense will be sparked by the running of #42 Don Wesley who has tallied near 1400 yards for the season thus far, and #12 right halfback Kerry Locklin who has, in recent weeks, been the Tigers' key rusher, consistently coming in with the big play.

Quarterback Scott Sparks will call the signals for the Tigers, while center Danny Stewart, right guard James Memke, left guard Jack Larkin, right tackle Leigh Shepard, left tackle Randy Flores, tight end Lawrence Wesley, split end Gene Grayson, and alternating wingbacks Danny Anderson and Milko Richards will team up to complete the Tiger offense machine.

## Trout Stocking Underway In State

Trout-fishing areas across the state have received the first loads of rainbows for the winter stocking season.

Texas Parks and Wildlife Department fisheries biologists last week stocked the Guadalupe River below Canyon Dam with 15,000 "catchable" sized fish 8-10 inches in length, the first installment of 130,000 to be stocked there this year.

Also stocked were approximately 2,000 fish in Boykin Lake near Jasper and Rock Creek in the Sam Rayburn Reservoir Area.

The Brazos River below the Possum Kingdom Dam received its first shipment of 18,000 trout, part of the 56, total projected for that stretch of river.

Biologist Pat Hutson said the stocking crews encountered some difficulties with the first truckloads of trout from the federal hatcheries in Arkansas, with some mortality due to water conditions in the trucks. Also, the Guadalupe release was delayed one day because Canyon Lake was apparently de-stratifying or "turning over," causing the water temperature in the river below to rise to 68 degrees. The trout had to be returned to the department's San Marcos hatchery for conditioning to the warm water temperature.

Hutson said this initial stocking program was slightly below expected numbers of fish, but this should not alter the department's plans to release 221,000 rainbows through the winter months.

### Nobel Prize goes to prof at UT Austin

AUSTIN, Texas (Spl.) — The University of Texas professor who won the 1977 Nobel Prize in Chemistry is something of a Renaissance man.

Dr. Ilya Prigogine, a Russian-born Belgian who divides his time between UT Austin and the Free University of Brussels, has a keen knowledge of and collects pre-Columbian art, plays the piano and knows a lot about music, is widely read not only in science but in the social sciences, art and literature in general, and enjoys analyzing the role of science and society.

One of his UT colleagues says it is difficult to start a conversation on almost any subject in which Dr. Prigogine is unable to join. Discussions with the professor are as likely to focus on the economy, art or life in Europe as they are on scientific matters.

The Nobel prize sense of humor, although not boisterous, is "well-honed" and always accompanied by a pleasant smile and chuckle, says a UT colleague. Another UT friend describes Dr. Prigogine as "a cultured European gentleman."

Dr. Prigogine's wife, Marina, holds a Ph.D. degree in chemical engineering. They have a young son, Pascal, age 7. Dr. Prigogine has an older son, Yves, 32.

At UT Austin, Dr. Prigogine is a professor of physics and chemical engineering

## AMA Outlines Christmas Safety

Glass Christmas tree ornaments definitely are not recommended for baby's diet this holiday season.

Absurd statement? Of course. But not as absurd as you might think. Every Christmas season physicians are called upon to give emergency treatment to small children who have swallowed bits of ornaments and glass.

Christmas is a time of bright little lights on a tree in the parlor, of shiny glass ornaments and decorations, of filmy spun glass filaments, of toys that sometimes have sharp, rough edges, of lots of candy, nuts and other rich edibles.

These are part of Christmas, and no one is suggesting there's anything wrong about it. The American Medical Association at this holiday season, however, points out once again that there are safety hazards at the Christmas season that aren't encountered during the rest of the year... hazards at the Christmas season that aren't encountered during the hazards that can turn a happy holiday into tragedy.

\*Check over your old string of Christmas tree lights and discard those that are worn or brittle. If there are very small children around your house, discard burnt-out bulbs with caution, so

### Money Spent On Colds May Not Help Misery

What can you do for the common cold?

Most folks know you can't cure it. And yet we keep trying. We still waste a lot of time and money on pills and nostrums and treatments -- all in the faint hope that maybe this time something will help.

A cold is caused by one or more of many viruses, the American Medical Association reminds, and actually, grandma's home therapy is still good.

If you get a cold, stay home in bed. Keep warm. Gargle to ease a sore throat. Take a mild pain reliever for the discomfort.

None of this will cure

baby can't get at them.

\*Keep the glass ornaments and filmy glass "angel hair" out of baby's reach. The ornaments crumble readily into sharp slivers.

\*Make absolutely certain that no toys coated with lead-based paint are included in Santa's pack. Lead poisoning is a danger should the child chew on the toy. Almost all manufacturers now avoid dangerous paints.

\*Select toys with a minimum of sharp, rough edges, toys that won't burn quickly if flicked through a candle flame, toys that are large enough to that babies can't swallow them.

\*Electrical toys, such as trains, should be selected with safety in mind. Is the wiring intact and strong, or is it loose and flimsy?

\*Rifles, sling shots, archery sets and other missile throwing toys are obviously dangerous if carelessly used. Set up a target range and make certain the youngster is taught to use the toy properly and safely.

This list could be continued, but you can make your own. The prime thing to remember is that in the bustle and excitement of Christmas, accidents can happen. Certainly no one wants to spoil the holiday with undue worry. Make your plans for a safe Christmas, and then enjoy it to the hilt.

## Comments From Chris

By Chris Holcombe

Do I need a will? What is the cost of making a will? Will it save me money? What are some of the major changes in the new inheritance tax law that just went into effect?

The answers to these and many more will be covered in the two estate planning programs to be presented in Milam County this month. The programs will be held December 8, 7 p.m. at the New Salem Home Demonstration Club in Fair Park and on December 13 7 p.m. at the Milam County Farm Bureau Meeting Room in Cameron. The same program will be presented at both places.

Doing the presentations will be Tom Prater, economist - management with the Texas Agricultural Extension Service in College Station and Mark Humble, local attorney. Both of these speakers are experts in their fields and are very well qualified.

These programs are open to anyone interested. There is no charge for the program. If you have any questions concerning these programs, please contact our office.

Twenty-four more days to Christmas and everyone is already in a mad rush trying to work on

their Christmas gift giving list. Nearly everyone has some one to buy toys for on that list and toy safety is very important.

Skates, tricycles, toy trucks, cars, non-flying airplanes, boats, toy wagons, and balls are among children's favorite playthings. But last year according to U. S. Consumer Product Safety Commission estimates, approximately 150,000 people received hospital emergency room treatment for injuries associated with toys.

Falls are the most frequent type of accident, but many serious injuries result from children swallowing small parts or placing toys in noses and ears, from exploding gas-powered toys from flammable products, and from sharp edges.

When buying toys choose toys with care. Keep in mind the child's age, interests, and skill level. Look for quality design and construction in all toys for all ages.

Make sure that all directions or instructions are clear -- to you, and, more importantly, to the child. Plastic wrappings on toys should be discarded at once before they become deadly play-

things.

Be a label reader. Look for age recommendations, such as "not recommended for children under three". Look for other safety labels including: "Non-toxic" on painted toys, "Flame retardant/Flame resistant" on fabric products and "Washable/hygienic materials" on stuffed toys and dolls.

When maintaining toys check all toys periodically for breakage and potential hazards. A dangerous toy should be thrown away or repaired immediately.

Edges on wooden toys that might have become sharp or surfaces covered with splinters should be sanded smooth. Use only paint labeled non-toxic to repaint toys and toy boxes. Examine all outdoor toys regularly for rust or weak or sharp parts that could become hazardous.

When storing toys teach children to put their toys safely away on shelves or in a toy chest after playing to prevent falls and other injuries.

Toy boxes, too, should be checked for safety. Use a toy chest that has a lightweight lid that can be opened easily from within.

Cameron police reported a quiet weekend with no automobile accidents and ten misdemeanor arrests.

### Bloodmobile Visit Scheduled For Dec. 14

The date for the next bloodmobile visit has been set for Wednesday, December 14 from 12 noon until 6 p.m. at the Methodist Fellowship Hall.

Central Texas Red Cross Blood Center officials said a big turnout will be needed as blood needs show a sharp increase in the holi-

day morning.

The car, which belonged to one of the girls' families, was wrecked near Griffin Chapel on Highway 36. When DPS Trooper Milton Wright and Deputy John Brooks came to investigate the accident, the girls started running away.

They were brought to Cameron and jailed pending notification of their parents. All three girls came from the Oklahoma City area.

It's that time again -- when the girls take over Yoe Field for an evening of fun and a little football.

The senior class of Yoe High will sponsor a Powderpuff football game Thursday, December 1 at 7:30 p.m. at Yoe Field.

Tickets will be \$1.25 for adults and 75 cents for students. Tickets can be purchased from any senior class member and will be available at the gate.

All proceeds will go toward financing the senior class trip.

As always an added attraction to the game will be the outlandish cheerleaders and the wild halftime activities.

Everyone is invited to come out for a fun time Thursday night.

 3/4 c. sugar  
 1-5 to 6 oz. pkg. chocolate baking bits  
 1-5 to 6 oz. pkg. butter-scotch baking bits  
 1 c. chopped pecans

Beat egg whites and salt to fluffy. Blend in sugar and continue beating until very stiff and glossy. Fold in remaining ingredients. Cover 2-10 1/2" x 15 1/2" cookie sheets with foil. Drop mixture from teaspoon onto foil covered sheets. Preheat to 275°. Put in cookie sheets. Turn off oven and leave overnight.
